12:30pm – 1:00 pm Registration and Vendor Fair

Sponsorship graciously
provided by:
Molnlycke Health Care
&
Eloquest Healthcare

Session 1:

Topic: Preventing Healthcare-Associated Infections: Do You Know if Your Health Care Providers are Doing the Most Important Things Consistently?

Speaker: Kristi Olguin, RN, BSN, PHN - CDPH HAI Program, Infection Preventionist

Objectives:

1. Review evidence-based practices known to prevent healthcare-associated infections (HAI)
2. Review recommendations for monitoring adherence to infection prevention practices, especially with central lines and indwelling urinary catheters
3. Review CDPH Adherence Monitoring Tools
4. Discuss why adherence monitoring is important

Session 2:

Topic: Building Collaborative Relationships Across the Continuum of Care Presentation and Discussion Panel

Speakers: Dhaiwat Kothari, MD (EDFMG), MPH, CIC

Kristi Olguin, RN, BSN, PHN - CDPH HAI Program, Infection Preventionist

Ann Meyer, RN, BSN

Mofeed Habashy, MBBCh, MD

Objectives:

1. Understand financial implications from a Discharge perspective from facility to facility
2. Infection Prevention from a Long-term care setting and importance of avoiding Outbreaks
3. Evidence based research and its importance on care and preventing resistance
4. Understanding mandatory upcoming requirement

Session 3:

Topic: Legionellosis in Long-term Care Facilities

Speaker: Kathy Cabral, LEED AP, NSF Certified ACCP,
Senior Water Safety Manager
Nalco Water – Ecolab

Objectives:

1. Summarize the origins and types of microorganisms present in fresh, potable water
2. Discuss how building water systems become sources and vectors for infection
3. Review key findings from outbreak investigations
4. Explore strategies to reduce risk and infections
